There are four sides to this story....

Welcome to Four Sides Bar & Kitchen, where culinary tales from around the globe converge. Our diverse team brings together the best of their cultural backgrounds to craft modern Australian cuisine with a fusion twist. Each dish on our menu tells a story, story of a culture and its people, blending tradition with innovation to create a symphony of flavours that will keep you coming back for more. From hearty mains to enticing small plates all centred around our woodfired oven and meant for sharing, there's something for everyone to enjoy!

As for drinks, we believe they should speak for themselves. Our selection is curated to complement our cuisine, ensuring each sip is as enjoyable as the last, without the need for lengthy explanations.

Join us as we put our own take on taste and tradition one shared meal at a time, served with a side of warmth and hospitality.
